

About

This stone hardware collection is handpicked from the shores of the Great Lakes. They are tumbled smooth, drilled and then permanently attached to a solid unlacquered brass stem (100% recycled stock) and sealed.
100% Made in Michigan.

Sizes & Styles

We offer 4 sizes in singular knobs and 3 sizes and 2 styles of Perfect Pairs

Product Code/Name	Size	Function
49-Minis	½" brass stem - stone diameter < 1"	for small cabinets or jewelry boxes
50-Standard	½" brass stem stone diameter approx. 1.25"-1.75"	good for all cabinet applications
51-Deluxe	¾" brass stem stone diameter approx. 1.75" – 2.5"	offers extra finger room for comfort
RR-X-large	1" brass stem stone diameter approx. 2.5" – 3.5"	great for closet doors* <small>*best used with an escutcheon or backing plate</small>

Shipping

- Orders received before 3pm generally ship same day.
- Shipping is **UPS** unless otherwise specified. Only actual shipping charges are billed. FOB origin Farmington Hills, MI
- 1" screws are provided with all knobs. 1¾" breakaway screws provided on request.

Previews

We are happy to supply digital photos of any product. Sometimes a customer needs to "see" what they are getting, or wants to choose particular ones from a large batch.

Variations

- **Low Profile Knobs** - A low profile knob, less than ½" projection if needed, can be created by eliminating the stem and replacing it with a screw that attaches through the cabinet with a nut. By special order only.
- We will provide ANY screw length from ½" to 2" upon request.
- **Custom Stem Finishes** - Available in silver or black. Additional charges apply. Please call for quote.

Disclaimer

The shores of the Great Lakes have an abundant variety of stone. Few are ever the same. We do our best to fill large orders with stones of similar composition if requested. We make sure that they are of comparable size and look good together.

BUT it is a very natural product and you need to expect variations.

Warranty

We are proud of the quality products we offer. With minimal care, they will outlast the cabinet. We will repair or replace any rock knob that breaks or fails to perform for any reason. Simply return the part to us. No time limit, no receipt needed. Please contact us for return instructions.

Return Policy

NO RESTOCKING FEE

Prior authorization is required for all returns. Returns are accepted for full CREDIT if we are notified within 20 days and return is received within 30 days. Credit is good for one year and is good for any Michigan Naturals or Grace White Glass product (Kiln-formed product only, no Hot or Flameworked glass). Returns are not accepted after 30 days. Please contact us for return instructions.

Mountain Midnight

MM-SPO Dark green, charcoal or black stone with one or more spots that vary in color.

MM-SPK Dark stones with light speckles or light stones with dark speckles – overall dark.

MM-SOL Dark color will vary. The amount of sheen in this category can vary from glossy to matte. Some can have faint speckling or spots.

MM-STR Markings can be thin or wide and vary in color. Some may have speckling and spots.

Available in standard ½" lg stem – product code 50-MM or deluxe ¾" lg stem – product code 51-MM

Harvest Sunset

HS-YBE Light beige stones, most with speckles and yellow tint.

HS-YGO Light to mid tones from solid yellow quartz to darker honey gold; most have some black.

HS-PEO Mid tones; all have speckles or pattern; no solid colors.

HS-YBL Yellow to gold stone with large percentage of black.

Available in standard ½" lg stem – product code 50-HS or deluxe ¾" lg stem – product code 51-HS

Forest Floor

FF-BRO

Mostly present as solids but many have light speckles or stripes; color range from a deep grey-brown to Indian red.

FF-YEG

Yellow-Green – mostly solids, a few have light patterning. Shades will vary.

FF-GYG

Gray-Green – mostly solids, a few have light patterning. Shades will vary.

FF-MDN

Mid-range to dark neutrals. Darker and more varied than pinky-beige, lighter than all the Mountain Midnights. It includes a wide range of pattern in warm and cool tones.

Available in standard ½" lg stem – product code 50-FF or deluxe ¾" lg stem – product code 51-FF

Winter Morning

WM-WAQ Warm Quartz – quartz can range in translucency and can be tinted with iron oxide producing a color range from light yellow to rusty brown

WM-COQ Cool Quartz – a range of grey from almost pure white to cool grey. Most have some oxide tinting.

WM-CBE Cream/beige colors – a light neutral stone with charcoal or black speckles. Some have soft pink tones.

WM-SPG A finely ground mix of black, white and grey; cool tones.

Available in standard ½" lg stem – product code 50-WM or deluxe ¾" lg stem – product code 51-WM

Sunrise Parfait

SP-PKS Light to mid tones, some with peach and coral.

SP-MPP Mid range tones, pinky-peach to rusty orange.

SP-RDO A vibrant color collection; can have small amounts of black or white or green.

SP-PKB Pink-Beige - Overall mid-range neutral tones with hints of color.

Available in standard ½" lg stem – product code 50-SP or deluxe ¾" lg stem – product code 51-SP

RS Style

BC Style

Perfect Pairs

A Perfect Pair is one rock sliced in two to make a set of knobs for two adjacent cabinets. Perfect Pair choices are featured on the website www.michigannaturals.net. Reference specific product code when ordering.

There are two styles. The first (item code RS) is usually a flatter rock that is sliced in half like a sandwich.

In the second style (item code BC) the stone is generally rounder and more symmetrical. The brass stem is attached to the sliced side.

The Small and Medium sizes are a good choice for standard cabinets. The Large size works well for pantry doors, bifolds, and entertainment centers.

A word about color – perfect pairs are available in all 5 main color categories.
